WORKFLOW SOLUTIONS FOR LEGAL SERVICES

MX-3070N MX-3570N MX-4070N

Advanced Series Color Document Systems

Gain powerful document processing capabilities and help meet regulatory compliance with the Sharp color Advanced Series.

## A NEW BENCHMARK OF INNOVATION FOR LEGAL ENVIRONMENTS

law firms

The Sharp MX-3070N, MX-3570N, and MX-4070N Advanced Series color workgroup document systems offer innovative workflow solutions for legal environments to help manage various types of case documents and client matter as well as enhance collaboration in the office, while helping to control copy, print and scanning expenses.

### Highlights

- The color Advanced Series models are compatible with popular job accounting and client billing applications, which can help legal firms of all sizes manage client costs with greater efficiency.
- Index case files with available Bates stamping using integrated applications such as Drive I Image™, which works seamlessly with the color Advanced Series, minimizing administration time and cost.
- Easily scan legal documents and convert them to popular file formats in a single operation.
- Gain convenient access to printing from mobile devices, such as tablets and smartphones. Sharp can also help legal firms adopt Bring Your Own Device (BYOD) initiatives through innovative applications and support for popular mobile platforms and operating systems.
- Enhance collaboration by accessing popular cloud services directly from the color Advanced Series touchscreen with Sharp's built-in Cloud Connect features. Easily scan and print documents from these services without the need for additional middleware.

Sharp offers a range of secure workflow solutions to help legal firms not only better manage traditional printing and scanning of case information, but also embrace emerging technologies. Coupled with other Sharp products for legal environments, including AQUOS BOARD® interactive display systems, these workflow solutions can enhance collaboration and help bring greater efficiency to law firms.

*Bring visual collaboration and efficiency to time sensitive legal projects with the Sharp series of interactive display systems.*

# ADVANCED TECHNOLOGIES FOR LAW FIRMS

Enhance collaboration, manage client costs, and help meet regulatory compliance with secure, easy-to-use interactive workflow processes.

Sharp offers exciting and innovative solutions to help legal firms embrace new technologies and enhance document workflow processes for the 21st century, while helping ensure organizations maintain IT security, control costs and meet regulatory compliance.

## **Integrated Cost Accounting and Billing Code Solutions Help Control Costs**

Sharp, in combination with Sharp Partner Program members offer print management solutions for all sizes of legal environments to help firms allocate print costs for client matter. In addition to a built-in billing code feature, the color Advanced Series models are compatible with popular job accounting and client billing applications such as PaperCut MFT™ and Kayleigh job accounting software, which offer simplified access-control and cost recovery features.

## **Organize Legal Documents with Easy-to-Use Bates Numbering System**

Gain better control of case file documents with a Bates numbering solution, such as Drive I Image. Bates numbering makes it easy to index case files for quick identification and retrieval. Drive I Image is a powerful document capture and routing solution that is ideal for legal environments. Best of all, the color Advanced Series offers seamless integration with Drive I Image.

## **Scan Case File Documents and Convert Them to the Format You Need in a Single Step**

Easily scan legal documents and convert them to popular file formats, including Microsoft® Word, PowerPoint® and Excel®, as well as Searchable PDF and Encrypted PDF. The color Advanced Series has built-in technology to process documents in these file types without additional middleware.

## **Collaborate and Share Documents Using Popular Cloud Services**

Scan documents to, or print from Microsoft® OneDrive™ for Business, SharePoint® Online, and Google Drive™ without additional middleware. Also, Cloud Portal Office from Sharp offers ideal features for law firms, including document capture, file versioning and secure file sharing.

## **Securely Print and Scan Case Files and Client Information from Mobile Devices**

The color Advanced Series makes it easy for legal firms to scan or print files from tablets and smart phones using Sharpdesk® Mobile, a downloadable app available for most common mobile devices.<sup>1</sup> Mobile device access can easily be secured through user authentication and secure print release. The color Advanced Series also supports popular mobile technologies such as Mopria™, Android™ printing framework and Google Cloud Print™ to help embrace BYOD in your organization.<sup>2</sup>

<sup>1</sup> Visit [www.sharppusa.com](http://www.sharppusa.com) for a list of supported devices.

<sup>2</sup> Available winter-spring 2016.

## Case Study

### Mid-Size Law Office Boise, Idaho

#### BUSINESS CHALLENGES

A local law firm issued an RFQ to upgrade aging office equipment and help improve document workflow. The law firm had a product mix of older Ricoh and Canon document systems enabled with eCopy® ScanStations. The law firm used existing technology to scan into LexisNexis® TimeMatters®, a client/case document management application. They also used Scan to Email and Scan to Folder with sub-folder navigation to manage workflow.

#### TECHNOLOGY SOLUTIONS

The authorized Sharp dealer provided several Sharp document systems configured with the Sharp OSA® developed ScanPoint® Connector for TimeMatters, which provided integrated operation at the Sharp MFP touch screen. The solution also included Sharp's Email Connector and MyFolder Connector for the staff to scan and save documents to their own folders. The integrated applications, combined with Sharp's built-in retractable keyboards were key points to closing the deal.

The solution included the following:

- Four Sharp Color MFPs
- TimeMatters Sharp OSA Connector
- Sharp Email Connector app
- Sharp My Folder app

#### PROVEN RESULTS

The new Sharp document systems with the TimeMatters Connector, Email Connector and MyFolder Connector helped the firm's staff to scan/manage records more easily and interact with existing systems with greater efficiency.

## The Sharp color Advanced Series delivers cutting-edge integration and powerful productivity.

The Sharp MX-3070N, MX-3570N, and MX-4070N Advanced Series color workgroup document systems offer stunning color output with exceptional ease of use. These new models are designed to provide users with a seamless, intuitive experience, and the confidence in knowing their jobs will come out right the first time, every time. The new color Advanced Series focuses on user operability and draws inspiration from the latest networking and imaging technologies available today, all to create a document system that delivers the productivity you need, with the reliable performance you want.

### Key Features

- **Ease of Use** – Sharp’s customizable touchscreen display offers a user-friendly graphical interface with a clean design, simplified Easy Modes, and integrated operation guide.
- **Integration** – Equipped with the latest version of Sharp OSA® technology for easy integration with network applications and cloud services, these models can unlock advanced capabilities to help you better manage your workflow.
- **Productivity** – An integrated walk up sensor and an easy to use graphical interface combined with a 10-second warm up time create an enhanced workflow experience with virtually no waiting time.

*MX-3570N color Advanced Series document system shown with options.*

*Sharp's customizable touchscreen display offers a user-friendly graphical interface.*

## Designed to deliver performance and productivity.

- Automatic **walk-up motion sensor** wakes the machine, and it's ready within 10 seconds.
- Built-in **retractable keyboard** simplifies email address and subject line entries as well as repetitive scanning tasks and user authentication.
- Large 10.1" (diagonally measured) **customizable touchscreen display** with a clean design enables easy access to features and functions when setting up jobs.
- Sharp's **Color Consistency System** with next generation image process control delivers high-quality color output and maintains optimum color balance and toner density page after page.
- Easily **access popular cloud applications**, including Microsoft OneDrive for Business, SharePoint Online, and Google Drive with Sharp's Cloud Connect features.
- **Cloud Portal Office**, a content management software service from Sharp for storing and sharing scanned documents and other electronic files, helps keep your whole team connected.
- **Standard security platform** includes 256-bit encryption, up to 10-times data overwrite and an End-of-Lease feature that erases all data and personal information at trade-in.
- Standard **150-sheet duplexing document feeder** scans both sides of a document in a single pass at speeds up to **200 images per minute (ipm)**, putting less wear on the feeder and your originals, and giving you more time to spend on other tasks.
- **Compact PDF** feature dramatically reduces the file size of scanned color documents, resulting in decreased network traffic and more efficient use of disk and cloud storage.
- Flexible paper handling system supports media up to **110 lb. cover (300 gsm)** and up to **12" x 18"** through the paper trays, allowing you to print on a wide variety of media.
